Jim

thanks for your response however its not helpful. My understanding was that Ultrasound equipment was to be purchased and there was a business case prepared for it. You then informed Willie Mackie that equipment form Strathclyde was being moved to Stonehouse and that has not happened either.

The Community Council don't care who is providing the service- Acute or Primary - as long as it provided. The hospital has been open for over 18 months and this is dragging on too long. This was discussed at the open meeting on Monday evening and I have been instructed to step up the campaign.

Please supply me with the name of the person in the Acute service who is dealing with this and I will correspond with him directly. Please also supply the e-mail address for the General Manager of Hairmyres in order that I also contact him.

I expect a response by return

regards

George Smith
Chairman, Stonehouse Community Council

George,

I would advise you that I have been in contact with the Acute Division regarding your enquiry.

I would advise you that it is Graham Johnston and Roy Garscadden who are dealing with this matter and both of them are on leave from the 17th October. When they both return to work the middle of the following week I have arranged to discuss the matter further so that one of them can reply to you.

Many thanks.

Jim

Jim

the Community Council office bearers met this evening to discuss outstanding items. The case for the scanner at Stonehouse has been outstanding for over 14 months now and you have been the catalyst for the delays in responding to us.

I asked that you have your colleagues contact me and to date they haven't done so.

This is formal notice that unless I receive a reply from either you, Graham Johnston or Roy Garscadden by Friday 4 November I will escalate the requests to Tim Davidson and Andy Kerr, Minister for Health.

yours sincerely

George Smith
Chairman
