Dear Mr Freel,

Further to your enquiry of 12 March 2012 under the Freedom of Information Act, please find our response below. In your request you asked for the following information:-

- *Details of all the current clinics on offer within Stonehouse Hospital*
- *What future clinics are planned for the hospital, including the nature of the clinics and the timeline for commencement*
- *What clinics are being discontinued (if any) in the future, including when they are planned to close*
- *Is Dr Zola's clinic at Stonehouse continuing following his retiral*
- *Has another consultant been recruited to take over his role*
- *What is happening with the land of the former Stonehouse site in relation to (a) the sale of the land and housing plans, (b) fencing the perimeter of the site to ensure that it does not pose a health and safety issue to residents and children of Stonehouse, and (c) the general tidying up of the site*

Response

Clinics

I attach details of the clinics currently held at Stonehouse Hospital.

I can advise that Dr Zoma has only just intimated he is retiring. While we are looking to recruit a replacement, this is in the early stages and no appointment has been made.

I can advise that there are currently no confirmed plans to introduce or discontinue clinics at Stonehouse Hospital in the future. However, following Dr Zoma's intimation of retiral, we will review the way in which services are delivered at Stonehouse across a range of specialties, including rheumatology, to ensure we make the best use of our services and facilities and that our care is person centred, safe and effective.

You may be aware that the plain film x-rays will cease to be available at Stonehouse from September. We will endeavour to ensure, therefore, that patients attending Stonehouse do not require access to radiological services.

In relation to other services, we will continue to look at services across Lanarkshire to ensure we maximise the facilities that we have available at Stonehouse and in other areas. This would be done in line with the national quality strategy to ensure we provide effective and sustainable services in the future.

If you would like any further detail we will be happy to come and discuss this with the community council.

Land at the former Stonehouse Hospital

I can advise that the land at this site has been on the market for several years. While some interest has been shown, this has not been advanced to a point where a sale could be concluded.

I can advise that regular site checks are carried out to ensure the site is safe including the perimeter fence. These reports are passed on to the Maintenance Manager and any required works are carried out. There is no intention to add to the existing fence. An exercise is also underway to improve the current grounds surrounding the site.

I hope this is to your satisfaction. If you have any further queries on this please do not hesitate to contact me.

If you are not satisfied with this response to your original request we can advise you that you do have a right to a review under section 20 of the Freedom of Information (Scotland) Act. For this review you should write to Ian Ross, Director of Strategic Implementation Performance and Planning, NHS Lanarkshire Board, Kirklands, Fallside Road, Bothwell G71 8BB or by email to Ian.Ross@lanarkshire.scot.nhs.uk within 40 working days of 13 April 2012.

If, following the outcome of a request for review, you are still dissatisfied I can advise you that you have the right to make application for a decision by the Scottish Information Commissioner under Section 47(1) of the Freedom of Information (Scotland) Act 2002. The Commissioner can be contacted at Kinburn Castle, Doubledykes Road, St Andrews, Fife KY16 9DS or by telephone on 01334 464610, by fax on 01334 464611, and by E-mail at enquiries@itspublicknowledge.info

Yours sincerely

Linda Brownlie
Freedom of Information Officer
NHS Lanarkshire
