

The *GETTING TOGETHER* project

Potential participant contact details

The aim of the Getting Together project is to identify and engage with older people living in the community who do not access services for a variety of reasons and, by working with volunteers (aged 50+), identify potential health or social problems, look for solutions, and promote wellbeing through social inclusion.

Because people may come into contact with the project through a variety of routes, we need to keep a record of the information that is given to older people in the community, who gives it to them, and whether or not they are happy to be contacted by a member of the research team.

If you have been in contact with someone that you think might benefit from taking part in the project, and they have given permission for you to pass on their contact details on the understanding that we will contact them, please provide the following information:

Name of older person: _____
Address: _____
Postcode: _____
Telephone: _____

- ◆ Has the person named above given permission for you to pass on their contact details? Yes No
- ◆ Has the person named above seen the project information sheet? Yes No
- ◆ Are they aware that a member of the research will contact them? Yes No

Name of person providing information: _____

Signature of person providing information: _____

Address: _____
