

New to the area?

Our Community Welcome initiative...

2021 is certainly a challenging year, hopefully we will gain more control over our lives as we progress to push Covid-19 into the background.

Throughout the latter part of 2020 and into 2021 our community has started to see many changes, most notably the building of many new homes. Alongside this many families have moved into existing properties adding to our already vibrant community.

At Churches Together, following the teaching of Jesus, we aim to provide a positive and warm welcome to all, whatever their faith or beliefs.

*To this end we are launching our **Community Welcome** initiative to help new families find their feet through providing an informal opportunity to find out about community organisations. Starting in May we will be setting up short social Zoom video sessions that feature guests from local groups so that people can meet those involved and discover more about their activities. Later in 2021 we hope to run in-person social events when COVID restrictions allow.*

Over 40 local social, special interest and sporting organisations have joined our initiative!

It would be helpful if you could tell us the types of group you would like to hear more about and the best times of day that we should run the sessions as we aim to hold sessions to suit as many different needs as possible; for those at home during the day and those who would prefer an evening or weekend.

All you need to do is send us an email at churches.community.welcome@gmail.com and we'll be back in touch!
