

## WESTMORLAND GEOLOGICAL SOCIETY

### E-MAIL NEWSLETTER No. 72 - August 2022

#### **Down to Earth**

The August edition of Down to Earth is attached along with this Newsletter.

#### **Field Trips**

The field trips to Burlington Quarry (19<sup>th</sup> August) and Glenridding Mine have a restricted number of places available and both are now fully booked.

#### **Additional Field trip - Friday September 2nd** Leader - Prof Stuart Monro.

Meet 11am at Helbeck (Hillbeck) near Brough. Parking at SD 800 158. Toilets in Brough - on A685 just before the junction with Market Street. No facilities after that. Gentle pace, with lots of stops. Bring hand lens, notebook, some way of measuring directions and angles (such as a compass clinometer, or equivalent on a smartphone), a board to rest on (a clipboard is ideal), pencil and eraser, a couple of coloured pencils if you have them - and if it looks like rain, a large clear plastic bag that you can put your board inside. And a packed lunch, of course.

It would be useful to know numbers so that enough base maps can be provided. Please let Audrey Brown know by email if you are planning to come.
