

### **April Lecture**

Our last lecture of the season on 19<sup>th</sup> April is entitled “Early theories of landscape evolution in the Lake District, and the rise of glacial theory”. Dr Ian Francis is the speaker and the lecture will, as usual, be at the Abbot Hall Social Centre in Kendal.

### **Down to Earth**

The March and April editions of Down to Earth Extra accompany this Newsletter.

### **Changes to Programme**

Changes to the published programme are sometimes unavoidable, often at the last minute, so please check the Society’s website before setting off to attend any event.
