

## WESTMORLAND GEOLOGICAL SOCIETY

### E-MAIL NEWSLETTER No. 88 December 2023

#### **Jacobs Join**

This month's meeting will be our annual pre-Christmas Members' Evening and Jacob's Join which begins at 7.30pm on Wednesday 20<sup>th</sup> December. If you haven't been to one before, we usually bring and share out some food and listen to or deliver short talks. So if you would like to give a short talk about anything geologically related please let Richard or myself know. Any interesting specimens, fossils, maps or other items can also be put on display. And this will be the final chance to obtain a copy of the books belonging to the late Don Burnett. A poster is attached.

#### **Tutorials**

There is no tutorial in December.

The next one will be on Thursday 25<sup>th</sup> January.

#### **Down to Earth**

The December edition of Down to Earth Extra accompanies this Newsletter

#### **Help Wanted**

An enquirer is trying to get hold of the following paper: Trotter FM Glaciation of the Eastern Edenside QJGS 1xxxv page 549 1929 – if you can help please reply to [katherton99@btinternet.com](mailto:katherton99@btinternet.com)

#### **Changes to Programme**

Changes to the published programme are sometimes unavoidable, often at the last minute, so please check the Society's website before setting off to attend any event.
