

## WESTMORLAND GEOLOGICAL SOCIETY

### E-MAIL NEWSLETTER No. 69 - May 2022

#### **GeoWeek 2022**

This event starts on Saturday 7<sup>th</sup> May and runs until the 15<sup>th</sup>. There are geologically themed events all over Cumbria (and other parts of the country). Details of all these events can be found on <https://www.tulliehouse.co.uk/geoweeek-22>

#### **Assynt**

There is still one place available on our trip to Assynt. If you are interested please contact Bob Entwistle.

#### **Down to Earth**

The May issue of Down to Earth accompanies this newsletter.

#### **Proceedings**

The ammonite pictured on p 52 of the 2021 Proceedings is indeed the earliest in the British succession, but its name is *Psiloceras planorbis*.

#### **YouTube Talk**

Below is a link to a lecture about Adam Sedgwick and the Dent fault.

<https://www.youtube.com/watch?v=XMFyozkWojY>

#### **Dinosaurs – The final day**

David Attenborough presents a programme with new evidence about the day the meteorite wiped out the dinosaurs. The site in Hell Creek, North Dakota revealed fossils of creatures killed at the time, spherules created by the impact and even a fragment of the meteorite itself. It was broadcast in April and can be found on BBC i-player.
