NOTES:

- Colours in the images in column two relate to the priority routes. There are a number of different routes which are denoted by a range of colours. Black lines are non-gritted areas.
- The red lines in Column three denote the footways covered by the mini tractors.
- The highlighted “splodges” are an estimate of the venue locations.
- Loanhead mini tractor routes – normally only during normal working hours but will be included in the 0500 schedule if forecast dictates.
- No (routine) mini tractor routes in Danderhall, Newtongrange, Pathhead, Rosewell, Roslin – unless there is a prolonged weather event.
- In exceptional circumstances, other services may be pulled in to assist Roads with gritting operations.
