

The Ramblers - St Andrews & N.E. Fife Group

There was a good turnout of 17 for St Andrews & North East Fife Ramblers' 7-mile, figure of eight walk around Anstruther, Pittenweem and Kilrenny in early February. We set off from Anstruther, joining the coastal path towards Pittenweem. A playpark beside the path provided convenient picnic tables for our early coffee break in the pleasant sunshine, and then we continued on to Pittenweem. There we left the coast and headed onto a succession of country

tracks which brought us back to Anstruther at Crawhill, thus completing the first loop of our route. Our walk leader made the pragmatic, and welcome, decision to undertake the second loop in an anti-clockwise direction so that we could take advantage of the public amenities at the

harbour. We carried on through Cellardyke and climbed uphill to reach our destination for lunch at the war memorial, a great vantage point affording splendid views overlooking the estuary. Rested and refreshed we followed the path to Kilrenny where our leader paused to tell us about some of its interesting history. We then walked through the village and past Rennyhill, now feeling the light, cool wind in our faces as we proceeded at a gentle pace back to our starting point. A lovely day's walking was completed with refreshments at Kingsbarns (but still no scones!).

Our next walk is on Saturday 25th February, a 7.5-mile walk at Methven Wood. This is a moderate route following woodland tracks, riverside path and minor roads. All of our walks are open to guests who would like to try out The Ramblers, and full details can be found on our website www.standrewsnefiferamblers.com
