

## **The Ramblers - St Andrews & N.E. Fife Group**

Seven members attended the walk in Atholl Woods on a nice sunny day in mid-July. We stopped for a break at Mill Dam and looked out onto the loch where there was an abundance of water lilies. After that we continued on the path that takes you beside some fields where the sheep roam freely. At the path junction where right takes you to Dowally and left to Polney Loch we sat there and had our lunch and enjoyed super views up the valley towards Pitlochry. After lunch we took the left turn and continued through the woods until joining the old A9 road; carrying along the side of it for a short distance we then turned left and went up the side of Polney Loch and on up to the car park. After we got back to the cars we travelled south to Bankfoot for the customary tea and scones. The writer can report that the Mull cheddar cheese scone scored 5 from 5 from all the members who had one.
