We've discussed the findings with our local authority colleagues and other partners, and looked at local crime figures, and this has helped us identify three priorities that your local Neighbourhood officers will focus on over the next four months. For the East Northants area, the three local priorities will remain the same and will be:

- Road Safety & Traffic Offences
- Burglary
- Drug Dealing & Drug Misuse

At a county level, there are four [Matters of Priority](#) that the Force is giving special focus to this year – serious and organised crime, serious violence, drug harm and violence against Women and Girls. Please do look at the Northamptonshire Police Website with regards to the results we have had from weeks of action regarding the matters of priority that the East Northants Neighbourhood Team have been involved in.

The local Neighbourhood team priorities – known as locally identified priorities (LIPs) – are based on the issues that are of most concern in that particular area and are agreed every four months. We encourage you to complete the survey below so that we know what issues you feel are most important to you so that we can work to make the area you live safer.
