North Area Community Policing News – PS James Harrison

OFFICIAL

As you can see from the top picture here, the new youth shelter at Peebles has now been constructed and will hopefully provide younger persons a safe place to congregate. It is by engaging positively with younger people that we will help reduce antisocial behaviour, so projects like this are immensely important, along with the work the various youth workers, clubs and hubs do around the Borders. It is important to remember that not all younger persons are causing problems, and a group of boisterous teenagers is not necessarily a police matter.

Sadly, there are always a few who, for whatever reason, cause genuine antisocial behaviour problems within their community. I am aware of some recent antisocial behaviour in our area, and we are taking steps to address these issues. Where possible please provide accurate descriptions and / or names when reporting antisocial behaviour.

The second photo shows us at Galashiels Interchange with British Transport Police and Neighbourhood Watch as part of the Stay Safe Get On Board campaign recently, where BTP and NW travelled the length of the country visiting train stations and promoting crime prevention. Neighbourhood Watch can bring several benefits to your local community and help prevent crime, and it may also be a good way to help tackle antisocial behaviour. Please see the attached flyer for more details.

This included another two large / industrial scale Cannabis cultivations which had a potential street value of £2.3 million.

They would also like to highlight that the local communities across the Borders may have information which they deem insignificant in relation to people being seen at disused large premises over a period of time. Any suspicious activity will be followed up by this team but it is important that the public
