### **Planning Applications:**

- b) New Application:
  - \* Erection single storey extension to rear at 99 Main Street, for Mr I. Maw. Application type – Full Planning Permission: Council discussed this application at length and decided that the extension would have no impact on the street scene, would probably not adversely affect the neighbours and should be recommended for approval.
  - \* Erection of five dwellings at Main Street Star Inn site, for Heartland Coast & Country Developments. Application type: Outline Planning Permission. This application caused much concern and discussion amongst the members, it was decided that Council would oppose the application on the grounds of outside the development boundary, Frodingham is designated for limited small development only; too many vehicles would end up parked on Main Street at its narrowest point, and that the buildings proposed would overshadow the small old terrace cottages opposite.

A glossy booklet was circulated among the members to give a wider insight into his role.

Foston, Cllr Rookes had provided a written report in which he said the meeting was not well attended, that the route of the cable had not been decided not the point at which it will meet landfall.
