

Coronation Terrace SAM2 Nov 23 to Jan 24

28,570 recorded vehicles between 20th November and 7th January, equating to 607 per day. For the first part of the data a diversion on the Street was in place followed by the Christmas holidays.

61% of vehicles were obeying the speed limit so 31% were going over 30mph. 9% of vehicles were over 35mph with six of these at over 60mph, N.B. two were recorded at 90mph.

This data suggests that this location, as well as Northacre, require full speed checks to reduce the level of drivers breaking the law.
