

SAM 2 Analysis to June 27th to August 11th 2024 Attleborough Road Caston

Just over 18,000 vehicles were logged in the period.

53% of the vehicles were travelling at 30mph or less thus 47% were over 30mph with on average over 13% travelling at over 35mph.

In the small hours the highest % of speeders was seen but the biggest numbers are again in the morning rush hour from 6am to 8am and in the afternoons from 4pm to 6pm.

The busiest days of the week for speeders were Tuesdays, Wednesdays and Fridays
