

## Northacre SAM 2 Analysis Aug to October 2023

The SAM2 data showed just under 32,000 vehicle movements over the recording period.

The peak days had just over 1,000 vehicles per day

62% of vehicles were recorded at 30mph or below, hence 38% were over 30 mph.

10% of vehicles were over 40 mph with 11 vehicles recorded at over 50 mph

Peak traffic times were around 7am to 9am and 3pm to 6pm but traffic was still busy between 9am and 3pm.
