

SAM 2 Analysis 11th August to 22nd September 2024 Stow Bedon Road Caston

Just under 18,000 vehicles were logged in the period.

58% of the vehicles were travelling at 30mph or less thus 42% were over 30mph with on average over 13% travelling at over 35mph. This data mirrors the September speedwatch on this road which found 14% of vehicles over 35 mph.

The peak time for traffic and speeding was again 3 to 6pm.
