

## Safe Footpaths and verges

Compton Bishop Parish Council would like to ask residents of Compton Bishop and Cross to ensure their hedges and verges are suitably cut back and maintained. The number of people walking in the parish since the Covid 19 pandemic and lock down has increased tremendously and the Parish Council would like to continue promoting that the villages are safe to walk in.

Therefore please take a look, consider if someone with a pushchair or a wheelchair user could stay safe while walking past your home and that the hedge is not a hindrance or that other pedestrians could step on to verges that are not over grown.

The villages are generally well maintained by parishioners and this is a gentle reminder to take a look at your boundaries and tidy up where necessary.

Kind regards
