

Sedgemoor Schools **competition** time!

Sedgemoor District Council has a busy reception and needs to serve lots of different customers in Sedgemoor.

Sometimes families bring their children with them and they might need to wait for a little while for their appointment. This can be a bit boring!

We're redesigning our reception space and would like your help!

We would like to know what you would like to see in the space to make it better for children.

"If you were able to create an area for children in our reception area, what would it look like?"

"What sort of seating would you like to see?"

"What toys or equipment would you put in it?"

"What pictures and colours would you have on the wall?"

We are asking primary school age children to create their vision for a children's space.

They can do this in a picture, as a digital image, a model or any way they would like, using paint, pens, pencils, crayons, stick on pictures or using any other ideas they have.

There will be a **prize for the winning design and all entries will receive a certificate to recognise their hard work.**

You can submit your ideas by e-mailing or posting them to us using the contact details below. Please include your name, age and contact details. **All entries need to be received by Friday 15th May.**

We look forward to seeing all your ideas!
