

Proposed new Bus Shelter for Cold Ashby; February 2026

Cold Ashby Parish Council has been asked to approve installation of a new Bus Shelter for the village on the green near the red telephone box which houses the defibrillator.

The shelter is all black in colour (see picture below; please ignore the white band). It will be supplied by Bauer Media. An assessment of the impact on traffic safety and visibility has been undertaken. Ongoing cleaning and maintenance will be provided by West Northants Council through a contractor. It will be equipped with solar-powered lighting, seating and a timetable case.

The Parish Council will decide whether to approve installation of the bus shelter at its next meeting on **Wednesday March 4th, 2026, in the Playing Field Pavilion at 7.30p.m.** Residents are invited to attend to comment on the proposal and can also make their views known by emailing the Parish Clerk at clerk@coldashbypc.com.
