A problem not just for LWTA but in other areas of the county as well. Gigaclear had not notified residents or PC about work being carried out although some Lilford residents had received information. Cllr Barcham questioned Cllr Brackenbury about who had made the decision at NCC to use Gigaclear. Cllr Brackenbury understood that re-seeding of the affected areas would be carried when weather permits. Lilford residents have been informed that due to access problems concerning the private road Gigaclear had proposed routing the cable through their gardens which was not an option the residents concerned could agree to
