Drinking on Mars The Martian BOOK of Drinks

FREE RANGE

This long drink is sharp but sure. It gets its bite from the lime juice used and is best made with a darker type of sparkle-juice, preferably one that is caff- or caramel-based, but any dark, carbonated fizz will fit the bill.

Ingredients

- 60 ml light rum
- Juice of 2 limes
- Dark sparkle-juice of your choice
- Ice cubes

Method

- Add the ice cubes to a tall glass
- Pour in the lime juice and add the rum
- Top up with sparkle-juice, stir and serve
