## Ukraine thanks you

"Thank you very much for your continues support of our country, our people and community here.

Since this war begins I found that some of the best patriots of Ukraine doesn't have Ukrainian citizenship!

I'm just so much amazed and thankful to you for what you've been doing for us! I'm so much grateful that now, together we are helping Families and Ukrainian soldiers not just in Izmail, but also in danger cities under direct strikes and bombing, such as Nikolaev, Kharkiv and Odessa!

Because of the help and support that we are getting here from you, we are able to send provision and food further in country, where the need is even greater than in where we are at! - 700 people in bombing shelters getting food in Kharkiv daily! - 300 people in Nikolaev - 200 people in Izmail! + continuously distribute groceries, medicines for refugees and those who in need. + supplying needs of Ukrainian citizens and soldiers; helping where the need is most."
