18/10/2023

Dear consultee,

As part of a Long-Term Forest Plan (LTFP) renewal process we are undertaking on behalf of Luss Estates, nearby residents and relevant authorities are being consulted to determine as part of our due diligence. This is to determine any unforeseen impacts and gain valuable feedback from those who may be affected by the forest plan.

The primary stakeholders we have included are Scottish Forestry, SEPA, Historic Environment Scotland, RSPB, NatureScot, Argyll & Bute Council, Scottish Water, local community councils and numerous local neighbours.

Attached to our email, or included in the envelope, you can find a concept map outlining the proposed forest plan over the next 20 years. The concept map attached has made all best efforts to flag up constraints based on our knowledge of the site and after consulting databases, including Scotland's Environment Map, SEPA's Water Basin Management database, Pastmap and more. It would be appreciated if you as a stakeholder can inform us on any constraints that we have not accounted for. If you feel that a relevant stakeholder has been left out, it is not intentional and please let us know.

For reference, the concept map contains multiple initialisms, as follows:

BRN: Business Reference Number  
MLC: Main Location Code  
NBL LTR: Native Broadleaf Long-Term Retention  
NR: Natural Reserve  
OG: Open Ground  
OPP: Outside Plan Period  
SAC: Special Area of Conservation  
SSSI: Site of Special Scientific Interest

The period for making replies is normally 28 days from the date listed above. If you need more time, please let me know.

Kind regards,

Christopher Dacre, for RDS Forestry.
