11 General Data Protection Regulation. Two emails from Norfolk Association of Local Councils regarding the General Data Protection Regulation were **received**. The first said that, following many questions from Parish Councils about how they should comply with the Regulation's requirement that a Data Protection Officer be appointed, proposed arranging member councils to participate in a county-wide DPO Scheme, which would cost this Council £25.00 p.a. and provide some telephone support through initial paperwork issues, and then (if needed) a referral to negotiate any further professional support (initially free but then at £50.00/hour) from a "support partner" for more significant GDPR issues, e.g. dealing with a data breach. The second confirmed that the Government had tabled an amendment to its own Data Protection Bill to exempt parish and town councils from the requirement to appoint a DPO, although all other measures will apply. This amendment has since been passed, and so should form part of the eventual Act. Appointing a DPO would become discretionary and just regarded as good practice. The Clerk confirmed that he was working on the measures which the Council needed to take to comply with the Regulation, and hoped to bring proposals to a meeting shortly. This was **agreed**.
