

HIGHLAND GEOLOGICAL SOCIETY - MAP COLLECTION

LISTED: 5 JUNE 2014

NOTES The donors are indicated by initials: JB = John Buchanan; PC = Peter Christie; TH = Tony Harris; MP= Murray Paterson; SR = Sinclair Ross.

The maps are listed primarily by scale and sheet number, as this is the way they are usually quoted.

Dates published refers to the date on which that version of the map was published. In most cases the geological mapping is very much earlier.

Note particularly that the earlier metric maps are often photographic enlargements of imperial scale maps, where ,once again, the geological survey work may have been carried out decades earlier. The publication history is printed on almost all sheets - apart from a few which have been trimmed during mounting.
